

Information For All Recruitment Agencies

As an organisation, Opus International Consultants (UK) Limited is dedicating more effort to sourcing candidates directly, incorporating a variety of sourcing methods, as well as looking at staff global mobility and hiring from within. As such, we wish to ensure that we continue to operate in a fair and equitable manner, and therefore ask that agencies refrain from making contact with any of our Opus International Consultants (UK) Limited colleagues and that no CVs are submitted to staff across our organisation other than to our UK Recruitment Business Partner. Any unsolicited CVs and/or communications will reflect unfavorably on any potential opportunities for your agency. Any CVs will be sent at your own risk and will be interpreted as 'gifts'. We will also reserve the right to engage with suggested candidates directly having not, in any way, entered into your company's Terms and Conditions of Contract.

We have a long history of working with recruitment agencies and executive search firms in the UK to fill specialist roles, those requiring scarce skills or proving hard to fill. We may look to engage an agency or search firm where a project requires a certain volume of staff, a role is time sensitive or proving hard to fill after all other of our direct sourcing methods have been exhausted. In which case we will contact an agency from our Preferred Supplier List that is able to help us with our requirements.

If you are not currently and would like to be considered as a Preferred Supplier for future roles and projects, please send a brief introduction of your business to recruitment@opusinternational.co.uk clearly stating in the subject line of your email your company name and the discipline(s) that you specialise in. Your email will then be kept on file for consideration should we review our incumbent suppliers.

Thank you for your interest in Opus International Consultants (UK) Limited. We look forward to working with you at some point in the future.
